## **Asbestos - Sample**

*Please use the following procedure:*

- Sample a small amount of suspect material (about the size of a nickel, total) into a Ziplock bag.
- Label the bag w/type of material - *We recommend taking pictures of the sample and location (for your records, store with the lab report)*

## **Lead - Sample**

*Please use the following procedure:*

- Sample a large amount of suspect paint chip material (about the size of a roll of quarters, total) into a Ziplock bag.
- Label the bag w/type of material - *We recommend taking pictures of the sample and location (for your records, store with the lab report)*

## **Mold - Sample**

*Please use the following procedure:*

- Sample the suspect material (about the size of a quarter, total) into a Ziplock bag.
- Label the bag w/type of material - *We recommend taking pictures of the sample and location (for your records, store with the lab report)*
